## PROCEEDINGS

(11:15 a.m.)

COMMISSIONER TAPSCOTT: Good morning.

I'm sorry for the delay but it was business we had to set up this morning. Good morning. My name is Commissioner Stanley Tapscott. I'm the Chairman of the D.C. Taxicab Commission Panel on

Industry.

This is the second and final hearing on the Panel on Industry. With me today are the other members of the panel: Commissioner Anthony Muhammad and Betty Smalls, and Charles Lindsay.

Mr. Charles Lindsay is from the Taxicab

Commission and we are working with him on this.

The Office of Taxicabs.

The time is now 11:15 a.m. and we are in the Public Hearing Room at the D.C. Taxicab Commission, 2235 Shannon Place, S.E.

Earlier this year, the Commission directed the panel to investigate the current limit on taxicab vehicle licenses, commonly referred to as the H-tag moratorium, and to

publish a written report with recommendations to the full Commission concerning the moratorium.

To be clear, an H-tag is actually a license provided by the Department of Motor Vehicles when the Commission issues a vehicle license under its own rules.

The panel was directed to thoroughly evaluate all issues concerning the moratorium, which dates from January 2, 2006 to the present.

To do this, the panel decide to gather both written and oral comments from the industry, with written comments received first.

The written comments were provided through an H-Tag Information Form, which was made available from May 2nd through June 1st. The form allowed stakeholders to provide basic information about their views on the moratorium, and whether it should be lifted, and, if so, why. The panel received over 1,100 forms from drivers and companies, and has now had an opportunity to review the forms in order to get an accurate sense of stakeholder views in preparation for the

public hearings.

Today's second public hearing is an opportunity for the panel to receive more oral testimony on whether the Commission should lift the moratorium on vehicle licensing, and if so, whether there should be any limits or conditions placed on new licenses.

The panel expects to hear testimony on DCTC's licensing and market conditions affecting the supply and use of taxicabs in the District.

We are interested in receiving specific comments, particularly on the likely impacts of changes to the numbers of taxicab licenses, the types of vehicles used, and Wheelchair Access Vehicles.

The panel will take all testimony into consideration, but we all speakers to please be specific in their comments today.

We encourage speakers to avoid repeating what has already been said many times at the Commission's monthly meetings, and in other regular forums.

The panel is well aware of the common

arguments for and against new vehicle licenses, so please try to focus on specific issues, and share with us your most original insights that others have not already provided.

As stated in the Public Notice, registered speakers will have three minutes to speak, and non-registered speakers will have two minutes to speak.

As you can see by the turnout today, we have many people who have registered to speak. Therefore, we will strictly adhere to the aforementioned time limits. We ask that you respect the timeframe so that all in attendance will have the opportunity to testify.

You are free to stay or leave after you testify. However, because the capacity for this room is 91 occupants, we ask that you be considerate and leave, so that those wishing to testify that are standing in the lobby of this facility, can enter this hearing room. We will take a 10 minute recess every hour, which we will announce shortly beforehand.

Finally the record for this hearing will be open through August 13, 2015. If you are unable to testify today, but would like your testimony to be a part of the public record, please email it to poi@dc.gov, no later than August 13, 2015. Thank you.

Thank you. We will now call the first five speakers and operate in that fashion.

COMMISSIONER MUHAMMAD: Good morning.

A little bit of housekeeping. If everybody can turn their cell phones either off or on vibrate, that will be helpful because this hearing is being recorded.

Secondly, as the chairman stated, we have a lot of folk rotating in, so I ask that once you've completed your testimony, that again, I can't require you to leave, but I ask that you be again consideration and leave, so that others can come inside. Okay?

All right. We'll get started. I have a list of 58 pre-registered individuals or companies. They will be called first. After those

58 folk have been called -- and each one of those individuals get three minutes, a company or a group gets five minutes.

After those, the 58 have been called, we have a second sheet that I believe most of you have signed up for, for non-preregistered folk, we will then call you according to the order in which you sign up. Okay? So I ask you to be patient with us and work with us. And I also ask each person, as you come forward, please spell your name, because some of the names are a little difficult, so please spell your name, so that for the record we can have your name spelled correctly. Okay? All right. We can get started.

The first name is Brook Yoseph. Evelyn Ruiz. Jose Medrano. M-e-d-r-a-n-o. No? I'm going to spell your name. A-l-e-m-a-y-e-h-u Yadete. Again I'm going to spell this name.

Andargachew Wolde. A-n-d-a-r-g-a-c-h-e-w W-o-l-d-e. Francis Bundu. Berhane Negash. B-e-r-h-a-n-e. Tesfaye Temesgen. Last name T-e-m-e-s-g-e-n.

M.S. Cheema. C-h-e-e-m-a. Bhuiyan Mohammedhuda.

1	Last name M-o-h-a-m-m-e-d-h-u-d-a. Ibrahim
2	Ahmed. Ibrahim Ahmed. Esmail Abadiga. Last name
3	A-b-a-d-i-g-a. Mohammed Mhummed. Mohammed
4	Mhummed. Tesfaye Ephrem. E-p-h-r-e-m.
5	Last name is Dhaliwal. D-h-a-l-i-w-a-
6	l. Paulos Gossa. Last name, G-o-s-s-a. Safi
7	Abramechu. Last name A-b-a-m-e-c-h-u. Temesgen
8	Mendera. Last name M-e-n-d-e-r-a. Ed Wailes. S-w-
9	a-i-l-e-s.
10	Gashaw Birbo. Gashaw Birbo. B-i-r-b-o.
11	Saeed Khan. Saaeed Khan. Taera Jirapa. Please
12	have a seat. Yemis Abeboykue. Last name A-d-e-b-
13	o-y-k-u-e. Muhammed Akum. A-k-u-m. Sohail Sajid.
14	S-a-j-id.
15	Kamran Ibrahim. First name K-a-m-r-a-n
16	I-b-r-a-h-i-m.
17	Samuel Habtezion. H-a-b-t-e-z-i-o-n.
18	Yokoub Yokoub. Kehinde Aderoju. A-d-e-r-o-j-u.
19	Abdelmagib Bouataoui. B-o-u-a-t-a-o-u-i. All
20	right. There we go. All right. And I apologize if
21	I butchered your name. Please forgive. Okay.

Okay. So we're going to start with Brook Yoseph.

And you do have three minutes, and we're going to strictly adhere to that. Okay? You may begin, sir.

MR. YOSEPH: Good afternoon. For the record, my name is Brook, B-r-o-o-k, last name Y-o-s-e-p-h.

Panel, thanks for giving us this opportunity to voice our opinion, and for the record, I would like to make it clear that the comments I'll be making today are solely mine, personal. Even though I've been associated with a different group, I'd like to make that clear.

As far as today's meeting, according to the Notice for Public Hearing, states specifically to focus on the structure under which H-Tag may be distributed and also reasons for lifting the moratorium, so I'd like to focus on those two specific.

Let's start with the structure under which H-Tag may be expanded. With this, I would like to suggest that the H-Tag distribution process must not include any new criterias that

were not previously there when issuing the operator's permit.

As you well note, drivers comprised of a DMV residence, so prioritizing one over the other might be difficult.

Secondly, allow all individual ownership of H-Tag, as long as the owner has established the proper business entity by adding the persons owning the H-Tag. As you well know, the One-Stop Form currently, in its format, only allows for companies and association, and I'm here to say giving individuals the right will also give us the opportunity to own their own cabs.

And following that, to allow individuals to register their vehicles for an H-Tag by adding the wording, individual owner, and providing space for their signature.

And the One-Stop Form, in current format, a driver would have to give his vehicle as well as the rights for the tag to an association or a company, and that is unfair.

And under the structure, again, allow individuals to form companies, and to apply for two or more vehicles as long as the operators are based within the District, and are following everything that is stated within Title 31.

And as far as the circumstance, requirement under which the DCTC should lift the moratorium, number one is licensed taxicab operators must currently possess valid DCTC hack operator license, obviously, and second, DCTC to complete and make available a specific list of approved taxicab vehicles, and all the process be clear for those that are applying for an H-Tag.

In closing, DCTC, and panel members, as you well know, there are many shortcomings with the current format of the District Title 31 regulations governing the taxicab industry. Some of the regulations and amendments that were previously put in to place do not take into account the current circumstances affecting the distribution of taxicab industry, and is specific how the operating developments in computer

1 hardware, software, as well as phone apps, in 2 conjunction with the moratorium on H-Tag has 3 created an imbalance and unfair disadvantage to 4 operators without an individual H-Tag. 5 Therefore, it's in the city's best interest for the Taxicab Commission to reinstate 6 7 the open entry system, and let the market decide 8 the equilibrium. Thank you. 9 COMMISSIONER MUHAMMAD: Please, no 10 applause. We've got to get through this. 11 right? I get it. Thanks. 12 Ms. Evelyn Ruiz. And by the way, if 13 you have testimony, we'd really like a copy of 14 your testimony. You may begin Ms. Ruiz. 15 MS. RUIZ: Good morning to the 16 Commission and to all the attendees. My name is 17 Evelyn Ruiz. I am the manager of Classic Cab 18 Association. I am here today to voice my humble 19 opinion on the issuance of more H-Tags.

H-Tags should be issued with control and priority. First prior, companies and owners own H-Tag with existing PVIN. Second priority,

20

21

owners and operations that got PVIN, and returned their tags because they cancelled their insurance.

Third priority. Companies and owneroperators that want to invest on wheelchairaccessible v vehicles.

Fourth priority. Driver that got their pays in the year 2007, 2008, 2009, 2010, 2011, that physically and presently reside in Washington, D.C.

These drivers had been waiting for too long. I strongly believe the five instant drivers need not be issued an H-Tag at this time. On the hearing conducted July 23rd, 2015, I heard some testimonies from drivers, that they turn in their tags in the years 2009, 2010, and 11. They told us some of their stories, but I think they are just stories.

Here is the scenario at the Union Station cab line today. Rental drivers and owner-operators taxicabs, waiting time for passenger is about between 35 to an hour.

Imagine how long will it takes if we do not control the number of taxicabs. I agree. Uber number is uncontrollable, but they do not have a problem because they do not fall in line. They are not being watched by any police of DCTC inspectors. They park in front of hotels or anywhere. They can load and unload, and stop anywhere they want. Law and order does not apply to them.

Adding more cabs is not a solution to fight Uber. We need an app and technology like Uber. We need to discipline ourselves by paying our taxicab insurance, even we go for a month vacation. We cannot just cancel insurance and turn in the tags, expecting the DCTC and DMV to give him, or her, another one after three months.

Lastly, I would like to request again the reactivation of my two H-Tags, which I continued paying the insurance on them until the license plates expired in February 2014.

Let me just point out that I am not asking for new H-Tags. I have these tags with

1 PVIN in my possession. I just need them to be 2 recommissioned. Thank you for listening and have 3 a wonderful day. 4 COMMISSIONER MUHAMMAD: Thank you. 5 Mr. Alemayehu Yadete. You may begin, 6 sir. Go ahead. Spell your name, please, so that 7 - for the record. 8 MR. JIRAT: Yes. My name is Tara Jirat. 9 I'm the cab driver. 10 COMMISSIONER MUHAMMAD: Can you spell 11 your name. 12 MR. JIRAT: T-a-r-a. Last name is J-i-13 r-a-t. Jirat. 14 COMMISSIONER MUHAMMAD: Okay. 15 MR. JIRAT: Okay. So first of all, 16 thank you so much for giving for these chances 17 to, for discussing about H-Tag. I'm the cab 18 driver from a cab company almost for one year. 19 So the car is - if you see the car, just you are 20 surprised. The car is almost, it is like - it's 21 - is very old car, like 2004. It is not for -22 it is not for service. The car is - totally, it

is too much - it is already - it is - the car is too old - the car. It is now got sometimes the airbag is coming out, sometimes the, the AC's not working. So any time I take the customer, the customer complain for me. Sometime police officer give me a ticket. This is because of the company, company not giving a good car or the new car for the driver. All drivers are just get, get accident on the highway because of companies not giving a right car for the driver.

So both driver and the customers are always - just they are battling on the highway and the other part of the cities. This is one big problem for drivers, other customers. So the car they give for us take too much gas. Just all - for example, sometimes I make like \$50 in a day, but I pay for the gas, like \$100. So always just I'm, I'm working like negative. I don't work nothing for myself.

Sometimes when, at the end of the month, I go to borrow money from my drivers, from other drivers, because I don't make any monies,

because - because of the car is not good. The car have - the car takes too much gas. I pay for gas. Sometimes, I pay for my ticket. Police officer give me a ticket because of air bag, and the other part of the vehicle is not operating very nice.

This is a big problem. So when I go to talk to my company about the car, the company is not treating to me. Instead of fixing the car, just as they running to me, to me. Like this car is very nice, this car is okay - go to work. So when I go to work, police officer give me a ticket. So the companies, still they are not treating drivers. We have a big problem, big, and a big problem. So I would like to say thank you for much for giving this chance for us to discussing each other.

So another one is only if you - only if you -- owners, the new company --

COMMISSIONER MUHAMMAD: I hate to cut you off but that's three minutes.

MR. JIRAT: Yes.

1 COMMISSIONER MUHAMMAD: Thanks. We have 2 to move to the next gentleman here. 3 Please spell your name for the record, 4 sir. 5 MR. YAAKOUP: my name is Yaakoup, Y-a-6 a-k-o-u-p. My first name. My last name is 7 Yaakoup. Yaakoup. Yaakoup. Y-a-a-k-o-u-p. 8 Well, my story is like five years ago, I go back 9 home in 2010, I go back, and like every time I 10 do, I take it to the DC - to the DC - take the 11 tag number back, and then come back and take it 12 This time I come back, they said no, we 13 cannot really give you - you have to go to DCTC. 14 Other way, you cannot have it. 15 Now I come in to DCTC in two thousand 16 and - it started in 2013, where - where Evelyn 17 Johnson, she let me buy a car. After I buy a car, 18 I put them in the car, and then I come back, two-19 three week. She left those. Now I, I don't know 20 what I do. So I just go in again, again, again, 21 again.

So I go to the - I have to -- I have

	all these people here to promise me to give me
2	this, give me that, give me that. Go buy a car.
3	Go buy this. I can never have it. Then I go rent
4	a car. I cannot rent a car for \$300, and I am 70
5	years old. I cannot work. I try, every time I
6	come here and talk to somebody, give me a cut,
7	you know, and nobody helping me. And I just want
8	to know what I do. Right to date, somebody will
9	tell me - please, what I do - do I have a tag
10	number, or I just to sit down home and be
11	homeless? One of these two things. I can have a
12	tag number, please. Or I will be homeless. Thank
13	you very much.
14	COMMISSIONER MUHAMMAD: Thank you, sir.
15	Kahinde Attaraju. Is that your name?
16	MR. BOUATAOUI: : Excuse me, sir.
17	COMMISSIONER MUHAMMAD: Is that your
18	name? Mr. Ka
19	MR. BOUATAOUI: Abdelmjid Bouataoui.
20	COMMISSIONER MUHAMMAD: Okay. Please
21	spell your name for the record.
22	MR. BOUATAOUI: Yes. It's A-b-d-e-l-m-

j-i-d. The last name is B-o-u-a-t-a-o-u-i.

COMMISSIONER MUHAMMAD: Thank you.

MR. BOUATAOUI: Good afternoon,
gentlemen, and ladies. Thank you very much for
giving us this opportunity to express our opinion
about this matter.

We are really, as drivers, as cab drivers, we are struggling too much about this weekly stand fee, which is too high for us, because with the Uber competition and outside cars, 300 a week, it's too much for us. And then also the cars, they are not in good shape, they give us, like car that consume too much gas.

I have to pay like \$60 a day, plus 300. We don't have that much time to spend with our family. You know, we have family, we have children, we have to spend time and with - we should spend some time with them.

And it happens to me now, the drivers, the number of drivers now in the, in the business is, is it's too many compared to the H-Tags.

Now before I was looking for a job, it took me

1	like two months to find a job. So it was not
2	easy.
3	And then when I talked to the company
4	about this matter, like a week, they said if you
5	want it, it's okay if you don't want, you can
6	leave. Somebody else, we'll find somebody else to
7	come work.
8	So we talk about this. Thank you very
9	much
10	COMMISSIONER MUHAMMAD: Thank you.
11	Okay. We'll continue down the list. Thank you.
12	Thank you all for testifying. The next name on
13	the list is George Akinkugbe. A-k-i-n-k-u-g-b-e.
14	(No response)
15	COMMISSIONER MUHAMMAD: Omi Omikunle.
16	Umi Omikunle. Last name O-m-i-k-u-n-l-e.
17	Is that you, sir? Okay. Please.
18	Mohammad Esghar.
19	(Pause)
20	COMMISSIONER MUHAMMAD: I apologize.
21	Mohammed E-s-g-h-a-r.
22	(No response)

	23
1	COMMISSIONER MUHAMMAD: Mohammad Khan.
2	K-h-a-n.
3	(No response)
4	COMMISSIONER MUHAMMAD: Olasoji
5	Olaniyi. O-l-a-n-i-y-i.
6	(No response)
7	COMMISSIONER MUHAMMAD: Tegen Desta.
8	Last name D-e-s-t-a.
9	(No response)
10	COMMISSIONER MUHAMMAD: Tesfaye Gebru.
11	B-e-g-r-u. Is that you, sir? Okay.
12	Tesfay Woldu. W-o-l-d-e. I mean d-u.
13	(No response)
14	COMMISSIONER MUHAMMAD: Raj Wali Khan.
15	Raj Wali Khan.
16	(No response)
17	COMMISSIONER MUHAMMAD: Shiraz Khan.
18	S-h-i-r-a-z Khan.
19	(No response)
20	COMMISSIONER MUHAMMAD: Gashaw Birbo.
21	G-a-s-h-a-w B-i-r-b-o.
22	(No response)

<i>'</i>	
1	COMMISSIONER MUHAMMAD: Omar Jarmouni.
2	J-a-r-m-o-u-n-i.
3	(No response)
4	COMMISSIONER MUHAMMAD: Nathan Price.
5	(No response)
6	COMMISSIONER MUHAMMAD: Chris Mills.
7	(No response)
8	COMMISSIONER MUHAMMAD: Arthur Lennon.
9	Please, sir.
10	Pete Harmon. Please, sir.
11	Hassan Hahmed. H-a-h-m-e-d.
12	(No response)
13	COMMISSIONER MUHAMMAD: Mangistu
14	Abebe. A-b-e-b-e. Mangistu Hamonout. H-a-m-o-
15	n-o-u-t. Harold Novick. Harold Novick. Is that
16	you, sir? Please. Yes. Okay. That's our five.
17	So let's see who we'll start with. Okay. As I
18	asked the last panel, please spell your name.
19	Can you gentlemen pass down the microphone right
20	here. Sir, can you pass the microphone down.
21	Thank you. All right.
22	Okay. And I'll set the timer here.

1 You ready? Okay. We can begin. 2 MR. AKINKUGBE: My full name is 3 Olaseha George Akinkugbe. COMMISSIONER MUHAMMAD: Can you spell 4 5 it, please. MR. AKINKUGBE: First name is O-1-a-s-6 7 e-h-a. George. G-e-o-r-g-e. Last name A-k-i-n-k-8 u-g-b-e. 9 DCTC, Shannon Place, Washington, D.C. 10 Sir, Submission of valid reasons for the 11 reinstatement of H-Tags to all taxicab drivers. I 12 humbly and respectfully state on the, on the list 13 problems to be considered. One. Double standard is never created 14 15 in any industry, worldwide. The DCTC has created 16 two standards by allow some drivers to own a cab 17 while other drivers are enslaved to cab 18 companies, who hire us at exorbitant prices. 19 That's why the evolution of some competitors like 20 Uber, Lyft, and so on. 21 Two. There is a secret of income on 22 the side of DCTC. The revenue to be generated by

DCTC from H-Tag, from registration, inspection, from new drivers, are grossly and negligently diverted to cab companies, because more new drivers will buy more cars than the cab companies. We cannot cope with their -- a month for cabs.

Three. Other competitors. Other competitor drivers such as Uber, Lyft, and so on, own their own car. Why is DCTC drivers are treated differently? I submitted for your perusal and reconsideration of the issue. Thank you.

COMMISSIONER MUHAMMAD: Thank you, sir.

The second person was - please. sir.

Yes. The gentleman right here. And you may begin.

MR. GEBRU: My name is Tesfaye Gebru.

My remarks in the - or opinion on the structure

of H-Tag license should be expanded to the pre
existing companies, and senior drivers, without

any specific requirements.

Those companies and individuals have been

Thanks

1 fulfilled the requirements and were operational 2 prior to the moratorium. The new application of 3 an H-Tag license should be allowed to fill the 4 gap opened, opening, or shortage or drivers based 5 on seniority. And with regard, the fuel-efficient cars can only be achieved in the fleet by federal 6 7 or city grant, or create - creative financing. 8 The only requirements that should be done by the 9 -- and own - the seniority basis. Thank you very 10 much. 11 COMMISSIONER MUHAMMAD: Thank you, sir. 12 Arthur Lennon, I believe is next. 13 MR. LENNON: Arthur Lennon. L-e-n-n-o-14 n. 15 The effect of adding more H-Tags to 16 the present system will be completely devastating 17 to the lives and income of a lot of cab drivers. 18 First of all, there are already too many taxis in Washington, D.C. The industry is over-saturated, 19 20 in my opinion, as it is. 21 Of the possible 7,000 taxis that there

are, there are probably more than 2,000 too many.

I work at night, mostly, and all I see driving up and down Wisconsin and Connecticut Avenues are empty cabs and occupied Ubers. Adding more H-Tags would make it more difficult for me to make a living. If I work in the daytime, it's the same situation. It's a dog eat dog situation among some cab drivers.

Some of the newer cab drivers, who can't own their own cabs, have found out that it is very difficult to have to pay over 300 bucks a week to rent a cab.

Some have quit driving cab and found other jobs. The bill of goods that they were sold by someone has not turned out to be true.

The competition for passengers in D.C. is very severe, so much so that companies such as Uber, Lyft, and the Circulator bus, have taken away most of our business.

For instance, two weeks ago, Saturday,
July 18, I sat on the cab stand at the Omni
Shoreham Hotel from 7:30 p.m. to 8:15 p.m. In
that interim, six Ubers came up and picked up six

different fares. After five - after 45 minutes,
I picked up one passenger going to Dupont Circle
for less than ten dollars. I decided not to go
back to the hotel stand but to hit the streets.
I did that for an hour. I picked up no one, and
then I decided to stop wasting my gas, and I went
home on a Saturday night, the busiest night of
the week.

I only average about two to eight trips per day. That were not the case two years ago, when I averaged over ten trips per day. I am not an exception in this regard, for I've spoken to many cab drivers and they tell me the same thing.

I know of some drivers who are on the verge of losing their homes and are on food stamps.

One solution, in my opinion, is to have a waiting list for drivers who want to have an H-Tag, and when a driver retires, loses his license, or passes away, that tag will be available to the next person. Personally, as you

see, I'm handicapped, and I use my taxi income to supplement my SSI, Social Security. If I can't work in my cab, I might move back to North Carolina where I can afford to live.

And just one last thing. About a year ago, I picked up Mr. Ronald Linton from the Omni Shoreham Hotel, and took him to his apartment at 38th and Macomb, and we had a discussion. At that time, he told me, in his opinion, he felt that there were too many cabs. We need about half of what we had already. He also said that he was trying to put apps in all D.C. cabs to contend with H-Tags. Well, Mr. Linton is gone now, but I'm just saying, in finishing, God rest his soul. Thank you very much.

COMMISSIONER MUHAMMAD: Thank you, sir.

Mr. Pete Harman, I believe is next.

MR. HARMAN: Yes. Peter Harman. H-a-r-

19 m-a-n.

I've been a driver and owner for over 20 years, and I find it very ironic, that the D.C. City Council, that agonized so much over

Wal-Mart coming in to D.C. and paying substandard wages, would deliberately impoverish thousands of cab drivers, pushing us in to sub-minimum wage condition. Our only - and allowing Uber, who pays their drivers about the same - an Uber drive who makes a third as much for doing the same amount of business that I do. After his expenses, he makes about half as much gross.

Basically, you're converting us from lower middle class income to working poor. And it's a deliberate policy, because before, nobody had their hand in our pocket. By allowing Uber in, where they take a 25 percent commission, and allow - and pushing - bringing all these new drivers in, they want to push us private owners out of business. We get thousand dollar fines for very trivial offenses. We get our cab impounded for check engine lights on. It's a deliberate attempt to put us out of business. I'm sure you're aware of this, because you're probably part of it.

Right now, there are 6- to 7,000 cabs

in D.C., which is the highest ratio of any city to residents. There's about ten, ten cabs per thousand people. The average in America is one-and-a-half per thousand. An app like Uber, or Lyft, you know, where there's not enough cabs, that makes sense.

Uber could have signed up thousands of cab drivers. You have the best cab service in the country. We are not allowed to compete with Uber. We have to have our cars inspected. We cannot - for example, I have a friend of mine, he developed an app. We're talking about setting up, so we would meet or beat Uber's price within the city all the time.

However, we cannot discount our fares with the credit card system that we have, because we get a thousand dollar fine if we use another credit card system.

We could easily beat Uber just on price. The only two reasons people use Uber is the price, and the advantage of a telephone app.

Now when I became a cab driver 20

years ago, I had to take an extremely difficult test. Only 7 percent of the people passed it on the first try. I passed it on the first try because I'd already been driving a cab in Virginia for eight years, and I'd been a bicycle messenger for 10 years. So I knew the city like the back of my hand. Still a very difficult test; but enabled you to own a cab.

Now the test has such difficult questions on it as: What body of water does the 14th Street Bridge cross? What's the address of the White House? Twenty years ago, I had guys in my cab who are college professors now, and lawyers, who said they tried to pass the test when they were undergraduates. They couldn't do it. It's very difficult, it was very difficult; but it enabled you to own your own cab.

Now when I - my cab was in an accident, I forget how many years ago, I got T-boned by a Veola cab, Sun Tech Cab of Montgomery County, I paid the insurance on my cab for two year -- almost two years, to keep my tags,

1 because I knew that once I lost my tags, you guys 2 would keep them. 3 And so basically, the fact that we had to go through so much, and - well, basically, 4 5 the problem is if you have licensed drivers 6 within five days, and they don't have any 7 knowledge of the city --8 COMMISSIONER MUHAMMAD: Mr. --9 MR. HARMAN: - they're going to end up 10 being as bad drivers as Uber drivers who don't 11 know anything --12 COMMISSIONER MUHAMMAD: Those three 13 minutes. I've let you go a little bit. I really 14 appreciate it. 15 MR. HARMAN: Yes; okay. 16 COMMISSIONER MUHAMMAD: And, you know, 17 for folk who have gone over, if you have written 18 testimony, the record is open until August 13th, 19 and we encourage you to get your testimony to us 20 for the record 21 MR. HARMAN: Okay. 22 COMMISSIONER MUHAMMAD: Okay. Thank you

1 so much. That's it for this panel. Thank you, 2 gentleman. I'm apologize. Harold Novick. 3 MR. NOVICK: Yes, sir. 4 COMMISSIONER MUHAMMAD: Please forgive 5 me, sir. Yes. You can begin, Mr. Novick. MR. NOVICK: Thank you. Would you like 6 7 me to deliver my comments to you now or --8 COMMISSIONER MUHAMMAD: You can deliver 9 them to us now if you have them. I'll stop the 10 clock. 11 MR. NOVICK: Thank you, Mr. Muhammad. 12 COMMISSIONER MUHAMMAD: Thank you, sir. 13 If you have pre-registered, you called 14 or emailed, please let us know so that we can get 15 you in prior to the non - folk who did not 16 register. You can begin whenever you like, sir. 17 MR. NOVICK: Good afternoon, 18 gentlemen. Thank you very much for having this 19 hearing, and audience. My name is Harold Novick. 20 N-o-v-i-c-k. I'm a lawyer admitted to Washington, 21 D.C., and I'm representing LouLou TemTem before 22 this hearing.

I've come to talk about two different things. One is the structure of the licenses and the H-Tags, and the other is the taxicab driver requirements.

Number one. This city is a wonderful city. It's a city that gets a lot of its revenue from tourists. Tourists come usually without cars. They need transportation. They need qualified transportation that is safe and assured. There are, and have been a lot of press about people being assaulted by taxicabs in the past, recently. It is this type of driver that DCTC ensures that we have. My position, our position on the current tag number is that they should be kept constant, but as they diminish because of death, or people leaving, they should be awarded to other people in line.

It is important that people be able to make a living, as you've heard testimony before.

Today, they may have \$15 an hour, if that much.

From that comes many, many, many expenses. Many of them are good. Some of them unnecessary. But

they're in competition with people that don't have these expenses.

I suggest that DCTC set up a

Commission, and have a study as to income, as to

cost, how to keep the drivers in line with

insurance and education, and then decide, at that

time, about the limits on the H-tags.

Right now, as you've heard, there's too many tags, too many drivers, and not enough competition, not - I'm sorry - not enough fares with the competition of Uber and others.

Second of all, many of the drivers are out-of-state drivers. There is a City Council ordinance that talks about what out-of-state drivers have to do to get a license. But some of those are inane, and are not really of value. I would submit, and suggest, that DCTC, as they have in the past, represent the taxicab drivers, and try to petition the City Council to make it easier for out-of-state drivers.

Most of the drivers here are out of state. They come here for a living. They come

here because they love the city. I think that in order to keep the quality up high, to keep those drivers that are regulated by you, by DCTC in line, that you have to limit it, and you have to take care of them. Thank you.

COMMISSIONER MUHAMMAD: Thank you, sir.

Thank you very much. Thank you for your

testimony. I thank the entire panel for your

testimony. Thank you.

I'm going to go back a little bit.

Thanks. You gentlemen can leave. Thanks. And

again, I can't require you to leave but I ask

that you exit, so that others that are perhaps in

the hall, or in the lobby area, could come in and

testify. Thank you.

I was told that Mr. Nathan Price is here. If so, please come to the table. Ermias Biz B-i-z-u-n-e-h. Negussie Dinkte. Samuel Tesfamicael. T-e-s-f-a-m-i-c-a-e-l. Tafera Mussie. M-u-s-s-i-e. Dekele Kessa. K-e-s-a. Mr. Royale Simms. Okay. And Vince Gordon. Okay.

So I am going to go back over this

list, real quick, to see if someone who was preregistered has come in. It's going to be very quick. Okay.

Were you gentlemen's names called?
(Off mic comments)

COMMISSIONER MUHAMMAD: Yes. Please have a seat. Okay. So after this panel, we're going to take a ten minute break, and then all the folk who had not previously pre-registered but signed in to testify, we're going to get to you guys. Okay? So these are the people who pre-registered. We can begin. Mr. Nathan Price. And you guys have three minutes.

MR. PRICE: Good morning. My name is
Nathan Price. I've been driving a taxicab in the
District for 43 years. During the first, I guess
12 or 13 years of my driving a cab, the Taxicab
Commission was formed out of legislation of a
Taxicab Act in 1985. But as I look around the
room, and I see all these drivers fighting to

join the industry, I really wonder why.

In the first place, the industry has become something that was not only a service industry. You have an industry of great importance, the historical, for freed slaves before the Civil War, for immigrants coming from Europe at the turn of the 20th Century, and later on, for immigrants coming from all over the world.

When I first started driving, it was a fun thing to do. It was part time. It was a lot of fun.

Now the industry has become somewhat different since the Taxicab Act in 1985. It's become more of a predatory industry. These drivers struggle to make a living. At the same time, you have the City Council that has given a blanket rein to Uber and other services to come in, and take their business.

The last time the D.C. government did a study on taxicab was June of 1990, and that was the Office of - I think it was something like

Productive Management, something like that. But it was - and the only time the Taxicab

Commission licensed a study, I believe it was in the mid 90s, and Jones, with Sharon Pratt Kelly, gave a company out of Canada a chance to do a study. Since then, we have been besieged, for almost 30 years, asan industry, with a non-regulator at its helm, because the most important thing for the industry is, first, to determine how many cabs are needed to deliver services, and how those services are meted out.

Title 31, which was the bible of all taxicab drivers. They carried it around, like a lot of people carry their bibles around. That was a quarter-inch thick - if that. Now that same instrument is about a foot and a half. Impossible to carry around.

Drivers are being blamed for everything from criminal acts, to just completely being idiots. The test has been dummied down, and I can't see where we're going anywhere. Anyway, I will get you a complete testimony because I've

just came back in town from vacation by the 13th of August, and I wish you luck in trying to do what you have to do. And I'd like to say hello to Ms. Smalls and Mr. Tapscott.

COMMISSIONER MUHAMMAD: Thank you, sir.

Mr. Yemis Adeboykue.

MR. ADEBOYKUE: Yes, sir.

COMMISSIONER MUHAMMAD: Yes. Please

MR. ADEBOYKUE: Good afternoon. My name is Yemisi Adeboykue. I have been driving taxicab for 43 years. September 1972. I'm sorry. June 1972. A few years ago, I was sick. I had stroke. Dropped my tags. When I came back, I was told I cannot have my tags anymore. This is, to me, very absurd. Can somebody lose his benefits? I'm asking, gentlemen, this, of good nature. Can you lose your benefits because you are sick? I lost my benefits, of not having tags because I was sick.

Washington, D.C. had a culture of allowing licensed cab drivers to own their cabs.

begin.

You took that culture away from us, so we can be working for cab companies who, in turn, hike up their cab rentals every week. This is slavery and oppression on part of drivers who rent cars because they cannot own, they cannot allow - they are not allowed to own their own vehicles.

Some cab drivers own their own tags.

Some cannot. This is absurd. Everybody driving cabs should be allowed, regardless whether you are a new cab driver who joined yesterday, should be allowed to have their own H-tags.

If this is not allowed, I believe this is unfair and ungodly. Uber killed us. Are you bury us or them? There's no valid reason to take this culture away from us. I believe that any cab driver who wants to own their own cab should be allowed to do so, why some other who are already enjoying that privilege.

Gentlemen, I will say God bless you as you are listening to us. We are suffering. With us today, 200. Next week, 300. This is slavery. We beg you to reconsider this. God bless you.

1 COMMISSIONER MUHAMMAD: Can you pass 2 the microphone down, please. Thank you. Please 3 spell your name for the record. 4 MR. OLASOJI: My name is Olaniyi 5 Olasoji. 6 COMMISSIONER MUHAMMAD: Please spell 7 it. 8 MR. OLASOJI: O-l-a-n-i-y-i. Olasoji. 9 O-1-a-s-o-j-i. 10 COMMISSIONER MUHAMMAD: Thank you. 11 MR. OLASOJI: Yes, sir. Thank you so 12 much again, the panel, for this opportunity for 13 second time. I came two weeks ago, and this is 14 just a recap of what I said two weeks ago here. 15 There's no more to be said. We just 16 need something to be done on time. Like I said, 17 It will bring in so many good just a recap. 18 things to DCTC, to the entire Washington, D.C. 19 Firstly, 2008, we bring innovation, and 20 challenges in to the system, as they allow Uber 21 to have the - because of weak specification that 22 were made by their boss, to have, maybe from 2008 and upward, driving cars.

We spend, we like to have confidence, everybody back on there. We all know that. You may not. I'm tired, you want to relax and go home. Not with our cars. With trucks. You know, sometimes your brake is making noise. Even with the seats. I mean, we drive cab, so we know what we're facing.

The companies just give you because you don't have no choice. You have to pay your rent. You have to pay your bill. So whatever they give you is what you take. That's what it is. If you allow us to have our own tag, innovation will come in, and the system will change. People will be happy.

Secondly, between confidence, only customers. If I go from here to New York, they don't have anything to fear. Maybe your car will break down. Your car is good, it's brand new, it's okay. So where we're going, they realize, because they have confidence, the way you got on the road.

1 Number three. There are the freedom of 2 choice. Not everybody will have the money go and 3 buy a brand new car, but for the people that are ready to do that, pay for the H-tag, buy their 4 brand new cars, allow them to do so. 5 6 They don't have the money should go 7 back to the company and number four. If we 8 encourage our drivers that already being lost to 9 Uber --10 COMMISSIONER MUHAMMAD: I have to cut 11 you off. Your three minutes is up. I've actually 12 let you go over. 13 MR. OLASOJI: Oh, thank you so much. 14 God bless you. 15 COMMISSIONER MUHAMMAD: When I do this, 16 wrap it up a little bit. Okay? Just try. All 17 right. Ready? Please spell your name for the 18 record, sir. 19 MR. FALESE: Akintoye Falese. 20 COMMISSIONER MUHAMMAD: Can you please 21 spell it. 22 MR. FALESE: First name is A-k-i-n-to-y-e. The last name is F-a-l-e-s-e.

## COMMISSIONER MUHAMMAD:

MR. FALESE: Thank you. I want to thank this panel for giving me the opportunity again to speak out, and to say my mind, to I guess press the kind of situation which the taxi driver facing. Some of the company that we rent cab from, they provide the services but on an absolute cost. We don't have no choice we have to pay. We have to go by them.

But I want to appeal to this panel to consider us, irrespective of the year that we've been driving, in as much as we are being certified by DCTC. We are the face - I mean, the licensed, drive cab, and to make choice of having H-tag should be considered.

That will bring good effectiveness in this business. We have opportunity to get a cab of our choice, of wish that is, you know, that we are going to put up to complete - compete reasonably in the market, going by the deregulation that has been in the system. The

1 Uber and the solo, you know. That will bring 2 effectiveness, confidence, and courage to the 3 drivers, and to the consumers. Confidency - the 4 right with confidence, because they are paying 5 for the service. So if this panel consider us, 6 it will be a very good thing to promote our 7 business, to promote us, and to like take us out 8 of this bonded that we are in, because we have to 9 pay some particular amount every week, 250 every 10 week to a cab company, and riding in an obsolete 11 car, which we don't even like make out there. 12 Sometime we have to, we have to like burn our ass 13 out, because we have to pay. If you don't pay, 14 then you, you can't ride. Go God bless you as you 15 consider us. Amen. 16 COMMISSIONER MUHAMMAD: Thank you. 17 Thank you, sir. Please spell your

name.

MR. WOLDU: Last name Woldu, or 1-d-u. First name Tesfay. This is second panel, summary or testimony we've given. In our opinion, the structure of the H-T tag license should be

18

19

20

21

lifted, and the moratorium of H-Tags, to be expanded to all qualified, without any specific requirements. The only requirement should be qualification in adding new technology and services to meet the demand.

This will give the public choices, and competitive on-demand services that will have benefits in service and cost for the citizens of Washington, D.C.

Any excess, overage, saturation, will be corrected by the market in a short period of time. In addition, we strongly suggest the D.C. Taxi Commission, as much time they're wasting or talking about this kind of panel, should be talking about the so-called demand service companies - Uber, Lyft, and all that kind of stuff. They should be regulated, and go through the same spectrum that everybody else is going through.

It is not fair to have a moratorium, and asking what the people would like to do. Let the market dictate what needs to be done. As

simple as that. Let's not waste time and energy, and that's our opinion.

COMMISSIONER MUHAMMAD: Thank you, sir.

Thank you. As stated, we're going to take a five
to ten minute break, I think everyone can use a
small break, and when we come back, I am going to
go down the list of non-preregistered voters, and
each of you have - you have two minutes. Okay?

Thank you very much.

(Whereupon, the above-entitled matter went off the record at 12:21 p.m. and resumed at 12:40 p.m.)

COMMISSIONER MUHAMMAD: Hello. The meeting is back in session. Can you guys please, and ladies and gentlemen, please take your seats, so we can get started. All right.

So I know I mentioned earlier that we were going to go, start from the list of individuals who had not previously registered.

However, there were about four or five folk who actually pre-registered, that I spoke to, that I'm going to call up, and they get three minutes.

1 The difference between pre-registered, and non, 2 and Boku did not pre-register, is one minute. 3 Boku pre-registered, gets three minutes. Boku 4 didn't register, gets two minutes. Okay. So let's 5 begin. Mr. Oluwuasfeni Omikunle. Vince Gordon. 6 Biz - B-i-z-u-a-y-e-h-u Hamout? 7 MR. HAMOUT: Hamout. 8 COMMISSIONER MUHAMMAD: Thank you, sir. 9 And Mr. Massoud. Each of you have three minutes 10 apiece, and now I'm going to ask a question. Is 11 there anyone else who pre-regi - oh. Ed Swailes. 12 Please. Thank you, sir. I almost forgot. Thank 13 you. Please have a seat. Yes. Is there anyone 14 else in this room that pre-registered? You called 15 me, you emailed me, you emailed to the P.O. 16 address, that I have not called? 17 (No response) 18 COMMISSIONER MUHAMMAD: Okay. 19 Okay. So this is the last panel of folk who have 20 three minutes apiece, and we can begin. 21 MR. OMIKUNLE: Good afternoon. 22 name is Oluwuasfeni Omikunle. Thank you for

giving us this opportunity of speaking in presence of you, sir.

My opinion is straight to, for all my colleagues, they are spoke before, and they spoke How we can get a tag, is good for a correct. outside there to get - a good driver business as we have been trained. We go through the training, go to class of giving our customer the way we address the customer, the way we treat the customer. After we give, we are -- and getting a car, the rent. For me, I spend more than eight weeks of getting a car, after I get ID. After I get ID, I spend on that eight weeks of repair a car. The car rents for 250 per week. And for me, I need to work before I can get, get \$20, because of competition outside, Uber, Lyft, and all that.

So my opinion is if we get a tag, at least maybe the cab driver, or my colleague, they can buy a new car, confidence with driver, the customer. So we can compete with Uber. Because right now we work hard. Sometimes, one of colleague, they went to the hotel, to sleep

there. So a lot of the - we do all we can do to get, to take of family. So we - I appeal to the panel, if you can issue a tag for us we can get a new car. We can get at least minimum of 1999 up to date. So that's my opinion. Thanks so much.

COMMISSIONER MUHAMMAD: Thank you, sir.

Thank you for staying within time. Thank you.

Next. Please.

MR. GORDON: Hello. My name is Vincent Gordon.

COMMISSIONER MUHAMMAD: Thank you.

MR. GORDON: I've been driving a taxicab in Washington, D.C. since 1988. I've raised my family, bought my home in the District, all while working either part time or full time as a cab driver. Currently, I live with cancer, and am a compensated veteran, who is rated permanently and totally disabled. My disability ended my 24-year career as a finishing carpenter and a project manager for a company that built restaurants in the Metropolitan Washington Area.

Fortunately, for me, working as a cab

driver supplements my income. Personally, I'm hoping that the issuance of Ace Tag will ensure that my lifetime commitment as a cab driver would be secure. I like to think I've operated in the industry like a responsible small business and contributed my service as a star ambassador, most visitors encounter when they come to the nation's capital.

With the ability to acquire Ace Tag,
I realized, I can realize the possibility of
participating in the Wheelchair Accessible
Program. I've invested, the last seven years,
trying to develop a working knowledge of the
wheelchair accessible industry. As an operator
of a wheelchair van, that is a taxicab, I'm
familiar with the task of maintaining that type
of vehicle.

Secondly, as a D.C. business owner, I had, in 2009-2010, coupled with a District cab company, and offered several contracts, several bids and contract proposals to operate as a Metro Access paratransit contractor. While proposing

those endeavors, I established invaluable relationships with Metro Access, along with a thorough understanding of the American Disability Act requirements.

I've also developed contacts with companies like Mobility Works, a wheelchair van conversion company, and also registered our company to attend Federal Transportation

Department paratransit instructor seminar that's conducted locally, so we would have properlytrained drivers we were to hire.

Froman industry point of view, I

believe that the issuance of a limited amount of

personal or company Ace Tag, with restrictions in

place, would ensure the availability of a

continued workforce that will allow the industry

to address inadequacies that can enhance taxicab

ridership. Lastly, as a driver that worked as an

office manager assistant with Imperial Cab

Company, and now doing special projects with Dial

Cab, I can see where the issuance of Ace Tags

will allow some companies to recapture the

financial burden mandated by some of the requirements that will come with the changes that's needed for the taxicab industry to remain a dominant force in Washington transportation.

COMMISSIONER MUHAMMAD: Thank you.

When I wave my phone, that just means you have about 10 or 15 seconds. Thank you for adhering to the time. I appreciate it. Next up, please, and pronounce your name.

MR. BIZUAYEHU: Thank you very much.

My name is Haim Bizuayehu. First name, H-a-i-m,

Last name B--i-z-u-a-y-e-h-u. Thank you for

this opportunity, and I will start by just asking
a question, everybody in this room, including the

panel, and my fellow cab drivers.

I think there is in the regulation,

Title 31, which was essentially passed or adopted here by this Commission, there is an age requirement for the taxicab vehicles. And I just want to know that - if that's still active or not. I have a reason why I ask this question and I'll come back to it. Let me start by saying

this. I think many of us in the street - I mean, as a cab driver, I drive like 14 or 15 hours a day, and my cab, fellow cab drivers also do the same thing. And probably you, the pa -- people in the panel, my flag is car taxicab on the streets of Washington, D.C. And when you raise your hand, you can see how many taxicabs convert to pick you up. That shows how the market is saturated.

Especially with images of these companies, Uber and Lyft, and Sidecar. With Uber only by itself, about 14,000 drivers in Washington, D.C. You can imagine how the market is, how the drivers already on the system struggling to make their living.

Then I posed a question when I, last time in my testimony for this. I heard many of the cab drivers in here, my fellow cab drivers, testify that if H-tags issued, that we can bring in new vehicles. I think it is a requirement, starting 2017, that each and every driver in Washington, including taxicab companies to bring new vehicles as a requirement. So Washington,

D.C. taxicab vehicles, starting from 2017, should be a minimum of five to seven years old, I think to bring in to the five years old, and to retire, seven years old. So relatively, we're going to have newer vehicles, including rental. So those people who are driving rental vehicles, they're going to start in a newer vehicle. So that shouldn't be the only justification to convince this panel or the Taxicab Commission for issuing new H-Tags. Instead, H-Tags - I'm not opposing issuing H-Tags. But first, a proper study has to be done.

I think that, as I mentioned in my testimony about two weeks ago, the 1985 Taxicab Commission establishment, that also required that the Commission to do a study, a comprehensive study, I believe two years, every two years, and it was that issue tags depending on the demand and supply.

But let me wrap up. So he told me to wrap up. So but after saying that, I want to mention two things, very critical things. One,

	those drivers who has lost their vehicle tags,
2	because it has been the long practice of this
3	Commission, this Taxicab Commission, and DMV, for
4	those drivers to turn in their vehicles and
5	reissue to them after they bring their new
6	vehicles or come back from vacation. That
7	suddenly stopped. So there are many drivers who
8	lost their tags because of that. That is not
9	fair. They should be reissued to them, and also
10	- I mean, if I were them - I'm not giving bad
11	advice - they can go to court and sue this
12	Commission, because you take the tag without any
13	advance notice.
14	COMMISSIONER MUHAMMAD: Thank you.
15	MR. BIZUAYEHU: For 2006, because I
16	don't want to be
17	COMMISSIONER MUHAMMAD: Thank you.
18	Thank you.
19	MR. BIZUAYEHU: For 2,000 drivers. Just
20	one second can I get?
21	COMMISSIONER MUHAMMAD: Thank you.
22	Thank you.

1	MR. BIZUAYEHU: Okay.
2	COMMISSIONER MUHAMMAD: Mr. Massoud.
3	MR. MEDGHALCHI: Thank you.
4	COMMISSIONER MUHAMMAD: Please spell
5	your name for the record.
6	MR. MEDGHALCHI: Massoud Medghalchi.
7	Thank you for the opportunity to testify again
8	before this panel, as I've done many times
9	before.
10	CHAIRMAN TAPSCOTT: Would you spell
11	your name for the record.
12	MR. MEDGHALCHI: M-a-s-s-o-u-d. Last
13	name is M-e-d-g-h-a-l-c-h-i.
14	CHAIRMAN TAPSCOTT: Thank you very
15	much.
16	COMMISSIONED MINIMARY, and IIII mine
	COMMISSIONER MUHAMMAD: And I'll give
17	you another five seconds.
17 18	
	you another five seconds.
18	you another five seconds.  MR. MEDGHALCHI: D.C. taxi industry has
18 19	you another five seconds.  MR. MEDGHALCHI: D.C. taxi industry has been subject of whims of several interest groups

who, by the way, comprise over 70 percent of the industry.

I will mention some of these. Number one. An unfair rate structure under which a ride across town in the early 80s was 25 cents more than a bus ride, so federal workers and the Congress would not inconvenienced or stressed financially.

Two. Legislature pretending to create jobs, which would be D.C. legislature.

Number Three. DCTC acting
inappropriately by peddling illegal licenses,
created an oversaturated and hostile environment
for the cab drivers. This was an unfair playing
field for drivers and company owners.
This created a financially unprofitable industry,
which has, and cannot recover from. Now we are
considering even more licenses without
appropriate studies. Special interest groups are
covering up valuable statistics, i.e., Uber,
Lyft, and Sidecar.

A balance cannot be achieved with so

much deception. We already have more vehicles per capita than any other city in the industrialized world, not just United States. If D.C. cabs pay the lowest rents in the nation, and cannot meet their financial obligations like they're crying about, then the market must be oversaturated.

As they're saying, they cannot pay \$250, and all the three jurisdictions near us go above 450, all the way to about 700 and change.

Nor can the special interests fulfill their promises of new vehicles when the drivers cannot afford the older vehicles.

These special interests will promise anything to muscle their way unfairly in to the industry. Legislation, regulation, or precedence, has never promised an H-Tag for any licensed drivers. They need to know that. When do we stop catering to these special interests that only recycle lawyers with ancient rhetoric?

I recall Ms. Vasquez, who is a lawyer for one of these groups, claiming her clients were not against H-Tag limits, at a hearing

before Chairman Linton. This was last year. 1 2 will the limits be appropriate then? After her 3 clients get their H-Tag, and the next lawyer 4 comes, and she wants another thousand H-Tags? 5 COMMISSIONER MUHAMMAD: Thank you, sir. MR. MEDGHALCHI: Thank you. 6 7 COMMISSIONER MUHAMMAD: Mr. Swailes. 8 MR. SWAILES: Good afternoon. My name 9 is Edward Swailes, and so I need to spell that 10 last name? 11 CHAIRMAN TAPSCOTT: Spell your name. 12 MR. SWAILES: Okay. No problem. It's S-13 w-a-i-l-e-s. First name is Ed. First, let me 14 thank the Commission for having this opportunity 15 to speak before you, and in the interests of 16 transparency, I should also mention that I have a 17 contract with TransCo as a manager of driver 18 instruction and industry relations. 19 And in preparing this presentation 20 today, I also did a collaboration with the 21 National Association of Railroad Passengers, who

helped me prepare some of the statistical data

that I'm going to give out to you today.

Let me back up here and say that, you know, I think that the Commission's consideration of the H-Tags, just having that on the table is something that gives us all an opportunity to speak about it, and give us a chance to air obviously different views in terms of whether they should be or not be. But I think it gives an opportunity to clear the air as well, in terms of where each entity of individual stands in that position.

First, I will say my position in all this is that I would recommend that the Commission do, that the Commission would consider - not just consider but actually put in effect a lifting of the moratorium on H-Tags. And my reasoning for saying that is that I think that the market itself is clearly in a growth pattern, and part of that growth is because of an increase in population, which we all know has occurred.

And according to the Wikipedia, in 2014, the District had a population of 658,893

people, an increase of 36,000 just over one year. That's an average of 3,000 new residents per month. Those residents, by large numbers, are young, professional, and have a lifestyle that does not lend itself to car ownership but for the use of vehicles like vehicle for hire. Bicycles. Go-cars You know, most of those persons are not doing ownership.

For that reason, I think that that has created an opportunity for other organizations, or companies like Uber, who have come in to this city, and who do make money and don't have a cap on the number of drivers that they can have. They continue to not just grow the market, in terms of making the market bigger because of their investment in advertising, their investment in community services, their investment in their drivers.

That I think is - and an example of that, which I want to share is, I just, the other day, was in Southeast, and I saw where Uber was having a free gas campaign. If you sign up to be

with Uber, you get free gas.

There's no cap on their number of drivers. If they can afford to give free gas out to their drivers and pay them, obviously, then that must say something about their model, business model, that is being implemented where they make money and their drivers make money.

Instead of the District cab drivers, owners,

Commissions, I think going through the hassle of competing with each other, my - that was two? I was all ready --

(Laughter)

MR. SWAILES: I'm just getting started, man.

COMMISSIONER MUHAMMAD: The wave just means you have about 15 seconds.

MR. SWAILES: I'm going to skip. Okay.

Okay. The Uber piece. But just to give some

data, quick data. Uber, which now controls about

40 percent of the market, that market has grown

by about 20 percent over the last two years. So

that means cab drivers that were in Washington

1 prior to Uber have lost, really, about 20 percent 2 of the market. That 20 percent could be gained 3 back with the continued growth of the market, if 4 we were able to increase our H-Tags --5 (Applause) COMMISSIONER MUHAMMAD: I have to stop 6 7 you there, sir. You have some fans there, but I 8 have to stop you. But look - I do encourage you 9 to --10 MR. SWAILES: I want to turn this in. 11 COMMISSIONER MUHAMMAD: Submit your 12 testimony to us. Submit your testimony to us for 13 the record, so that we can put --14 MR. SWAILES: Okay. 15 COMMISSIONER MUHAMMAD: Because you 16 have some very valuable information. So as we 17 deliberate, those are some of the factors that we 18 take in to consideration. 19 MR. SWAILES: Could I just end by 20 saying --21 COMMISSIONER MUHAMMAD: Thank you. 22 MR. SWAILES: Thank you. For this. But I want to submit it as a revised.

COMMISSIONER MUHAMMAD: That's fine.

The record remains open until August the 13th.

MR. SWAILES: Great.

COMMISSIONER MUHAMMAD: Okay. And if there's anyone else that would like to submit written testimony, we do encourage you to submit that. Okay? Thank you, panel. I appreciate it. The next several panels have two minutes apiece, so I'm going to call your names according to the list submitted. And again, we can't force you to leave but we do encourage you to exit the room once you've testified, so others may have an opportunity to occupy the room.

Okay. First up, I think Yakoub Yakoub already spoke. You can ask him, not me. Okay.

Mohamed Ali. Please. Gizau H-s-a-s-h-s-a-r excuse me - h-s-m-a-r-e. So okay. Mr. Afzal.

A-f-z-a-l. Lemmesa Hunde. L-e-m-m-e-s-a H-u-n-de. No? Kadissa Bahru. B-a-h-r-u. Reshaun Reda.

R-e-s-h-a-u-n R-e-d-a. Mohammad Shemu. S-h-e-mu. Last name Ab3be. First name is Abebaw. A-b-e-

b-a-w. A-b-e-b-e.

Alemayehu Ayane. A-y-a-n-e is the last name. A-y-a-n-e. Zelalem. Z-e-l-a-l-e-m. Last name is G-u-d, I believe l-e. Tadele Bayeta. B-a-y-e-t-a. Eyoel Tesfaye. E-y-o-e-l. Okay.

Abdul Ariyibi. A-r-i-y-i-b-i. Oh, okay. B-i-w-a-c-h-e-w. Is that you, sir? Abdul. Okay. Okay. Okay. We have five. Okay.

Gentlemen, you each have two minutes to speak, and we can begin.

MR. ALI: Good afternoon, panel. My name is Mohammad Ali. M-o-h-a-m-e-d. A-l-i.

Mohamed Ali. I'm -- really been here, you know,
I'm very happy to be, you know, in front of the panel, but the notice was very short. I just heard two days ago, and I didn't be informed, but what I'm coming to say today is a lot of companies, they are complaining about not to be issue for H-Tag. The fee they have is - it's not fair, because other D.C. - I'm - I've been in D.C. for over a decade, and I have no tag. So what I'm saying, the market is dead. The Uber,

they have the market, has D.C. visitors who ride their cabs. We can buy our own car and compete with them.

Most of our customer, they say because the car we driving is old, unclean, un - because we cannot compete with the Uber. But the Uber drivers, they own their own car. So if we got our own car, we could compete with them. And the industry, the taxi industry, they fear because they want to lose. This is America. They don't have to fear. This is free country. We make competition. Competition is open for everybody. So I'm asking, you know, the panel to be, consider to open, to give the H-Tag.

COMMISSIONER MUHAMMAD: Thank you, sir.

MR. ALI: You're welcome.

COMMISSIONER MUHAMMAD: Please. Can you pass the microphone down, please. Thank you.

MR. AFZAL: Good afternoon everyone.

My name is Faisal Afzal. So my concern about

DCTC, like my question is, one hand, DCTC giving

the license, but other hand no tags. So we have

16

17

18

19

20

21

22

to go to a different cab companies, and the cab companies, they charge us their choice of the rent. Some of them. And another thing is like, you know, we working in a district, in a city, one of the best city in the nation, but their cabs are not good. Their cabs are stinky. Some of them like, you know, old cabs. So if we could ever to get the H-Tag, so we have opportunity, we can put in nice decent car. So that's going to help the business, that's going to even help the consumer. So my request is, so H-Tag should be requesting for DCTC, and they should allow the H-Tags, so that's going to help all the drivers who are hustling on the roads, and dealing with the other cab companies, which has gone really tough for them.

So that's going to -- big relief for the drivers. So that's going to help the business, and some of them, some cab owners saying they're going to put the new vehicles on 2017, I just heard. So why not now, instead of waiting for 2017. We just got to do the action,

1 just got to make that happen, instead of like, 2 you know, anything like - I appreciate. 3 COMMISSIONER MUHAMMAD: Thank you. 4 Again, when I wave it, it just means you have 5 about another five or ten seconds. Please spell your name, sir. Yes? 6 7 MR. BAHRU: Taddesse Bahru. B-a-h-r-u, 8 my last name. Okay. Thank you for the 9 Commissioner and the panel, and my first - my 10 title is on the back side of the slogan. The 11 slogan is: The driver is extended arms of the 12 DCTC Commission. 13 MS. BOCOCK: Could you repeat that 14 again. 15 MR. BAHRU: The driver is extended arms 16 of DCTC. Do you understand what I mean? So it is 17 three corner of - it's benefit and use, and it 18 is very important for the DCTC. The first one is 19 we need H-Tag because when, on the weekends, on 20 Friday and Saturday, I've been working for D.C. drivers, I think for four months. Within this 21

four months, I -- with the Friday and Saturday,

it is a lot of, a lot of, a lot of customers.

Within 7:00 p.m. until 1:00 a.m., I think for I got for 25 fares. That's it.

So the rest, from Monday to Friday, from 9:00 to 10:30, there's a lot of flagging hands, especially the Congress, the Senate. So this is nation capital city. So we need issue tag. We need tags.

First, these convertible cars, for instance, for the hybrid car. That's it?

COMMISSIONER MUHAMMAD: You have 15

MR. BAHRU: Okay. And the rest of the business is healthy, safe, and the net services for the nation capital, the next market is easily convertible, and the third one's due to the gas consumptions. Because the hybrid gas is electrical car. So you don't need for too much gases. So due to these reasons, it's concerning for all the Commissioner, the panelists, and to take into considerations giving the H-Tag.

COMMISSIONER MUHAMMAD: Thank you for

seconds.

your testimony. Next. Please spell your name for the record.

MR. TESFAYE: Thanks so much. My name is E-o-l-e-y-o-e-l. And the last name is T-e-s-f-a-y-e. I would like to say thank you very much for the panel giving us this opportunity to speak out.

So I would like to start from reminding the DCTC some points that we are - the DCTC, or our district's strong arms, and well-trusted, well-trained, and licensed by the office, by like your office.

So why all these questions? Why all this, like hearings? And why all this meetings to provide us H-Tag? While non-trusted, or non-issued companies, or drivers, are doing the same thing? And I would like to ask you one question too. Don't you give us an ambassador? We are your ambassadors. Why all these questions to provide your ambassador the H-Tag?

Okay. The other thing. Remember, you are saying, or questioning your ambassador to

1 give up ,or to provide H-Tag. It's not our 2 museum, or the Newseum, or the even the Capitol. 3 It's your drivers, or the cab drivers, the first attraction of our District. So imagine treating 4 5 this - drivers like this. So the rental 6 companies are not treating us very well. And I'm 7 fini - I'm done almost. 8 So I am saying that the DCTC is not 9 treating us as well. So I'm not sure if the DCTC 10 is doing a favor for the rental companies, but we 11 - we just need, you know, the tag. So it's 12 not only Uber or Lyft should be considered as to 13 remove from the business, but also some companies 14 there, which are treating the drivers very 15 unfairly. So you should reconsider this, to 16 remove some companies too from the business. 17 And last, I want to say that we, your 18 ambassadors, deserve the tag without any 19 questions. Thank you very much. 20 COMMISSIONER MUHAMMAD: Thank you. 21 Please, sir, pronounce your name.

Neal R. Gross and Co., Inc. Washington DC

Hi.

My name is Abdul

MR. ARIYIBI:

Thank you for giving me, and us, the opportunity to speak to you today. This is my first time. Someone told me about it, and then I just popped in. And you guys might have to excuse me a little bit. been driving cab for about 25 years, and last year I went home - well, I got sick, I had to go home for a few months, and then came back. Got okay, and then I had to be readmitted at the hospital, Inova Hospital in Virginia, Fairfax County. And came back. I couldn't get back my And this really create a lot of hardship on me, and a lot of other drivers that I've spoken, and drive, and sitting here today.

We are asking you, kindly, to think about our situation, economic situation, social situation with our family, because now we have to put in many, many hours in order - in fact, we don't even meet our economic obligation to pay these cab companies. It's really hard on us.

We have given our services to Washington, D.C., and like the last speaker just

17

18

19

20

21

1 said, we have gone through a lot of scrutiny by 2 the DCTC Office, the hack inspectors, and the 3 police officials. Please consider us, and 4 helping us. Thank you very much. 5 COMMISSIONER MUHAMMAD: Thank you. 6 Thank you. 7 All right. B-i-w-a-r-c-h-u. C-h--I 8 think your initials is E.G. I can't - your 9 cursive is a little tough to read. Mr. Eskinder 10 Damonte. D-a-m-o-n-t-e. Wassinu E-n-d-a-l-a-w. 11 Napoleon Tesema. Gurmu - your last name is Gurmu 12 G-u-r-m-u. 13 Yee N-a-i-n-g. You are --14 (Off mic comments) 15 COMMISSIONER MUHAMMAD: G-u-r-m-u? 16 Okay. Yee Naing. I'm going to go back through 17 this list, and maybe some folk who signed up 18 didn't show up. 19 Last name H-s-m-a-r-e. First name is 20 L-e-m-m-e-s-a-h-u-n-d-e. Last name B-a-Gizal. 21 h-r-u. Thank you. Thank you. Rishon 22 Rita. Mohammed Shimu. A-l-e-m-a-y-e-h-u.

1	Zalemum G-u-d-l-e. B-a-y - oh, I'm sorry. He
2	testified. Excuse me. B-i-w-a-r-c-h-u. Again,
3	initial is E.G. I believe, or E.J. I can't
4	understand your writing. Sorry.
5	D-a-n-t-e. W-e-s-s-a-g-n-u. Napoleon
6	Tessema. Yee N-a-i-n-g. E-n-c-h-a-l-l-e-u.
7	First name, D-e-m-e-k-e. Okay.
8	E-m-i-r-u. Okay. L.T. are your
9	initials? Okay. Michael S. S-i-s-a-y. Sisay.
10	Israel Gomez. Please have a seat. That's three.
11	Again, E-n-d-a-l-a-w. Signed up twice. F-a-n-t-a-
12	h-u-n. S-h-u-b-e. Please have a seat. And Mr.
13	Gashaw Birbo.
14	Okay. Because Mr. Gashaw Birbo signed
15	up, he pre-registered, I'm going to give him
16	three minutes, and the rest of the panel gets two
17	minutes. Okay. So all right. You have testimony.
18	Thank you, sir. Okay. All right.
19	Again, please spell your name for the
20	record. Thank you. You have two minutes.
21	MR. GUSU: I was also pre-register, so
22	T can get three minutes instead of three - two?

COMMISSIONER MUHAMMAD: Okay. please 1 2 begin. 3 Good afternoon. My name is MR. GUSU: Emiru Gusu. First off, I would like --4 5 COMMISSIONER MUHAMMAD: Please spell 6 it. Please spell it for the record, so we can be 7 very clear. It's being recorded. Go ahead. 8 MR. GUSU: E-m-i-r-u, first name. And 9 last name is G-u-s-u. Good afternoon. First of 10 all, I would like to thank DCTC for arranging 11 these panel discussions to share our opinions on 12 H-Tags. Then I'm in support of DCTC to issue H-13 Tags to anybody, a person who have face ID, or a 14 company or association, who can purchase a new 15 car, which is fuel efficient, comfortable for 16 passengers, and fitted with wheelchair 17 accessible. 18 Please don't give tags only to taxi 19 companies, and push the drivers to work for taxi 20 companies. That is totally unfair, and 21 discrimination. I am a cab driver, as well as my

colleagues, are facing the following problems

from District of Columbia taxicab companies due to DCTC are pushing us to rent cars from taxi companies instead of providing our own tags, tag numbers.

Among the problems we encounter from the cab companies are: Increasing of rent from time to time; the absence of cabs for rent; the quality and comfort of the cabs available for rent is very poor; the cars are getting older and driven for many years. Because of this, our customers are not satisfied with our service.

Poor customer service from taxi
companies, and the owners are not willing to
listen to our complaints when we first - also we
are unable to compete with other independent cab
drivers, and other independent drivers working
for Uber and Lyft.

COMMISSIONER MUHAMMAD: I have to stop you there. Thank you for your testimony, sir.

Thank you.

Next, please. Please spell your name for the record, if you don't mind.

MR. ENCHALLEW: Yes. Thank you very much for the opportunity. My name is Demeke Enchallew. D-e-m-e-k-e. Last name, E-n-c-h-a-l-l-e-w.

CHAIRMAN TAPSCOTT: Pull the mike a little bit closer to you.

MR. ENCHALLEW: All right. Thank you, sir.

I like to start by thanking DCTC for the new apps that we are testing now. I'm one of the guys who's testing the app, and app is going to be very, very nice, and it's going to reduce most of the complaints here I think, if we advertise it, and let the people know. The app's going to bring back most of the business that we are losing with other app companies.

And by saying that, to use this app in proper way, and to expand the business, DCTC should issue the H-Tag because we're going to take on-call businesses from the app, with the technology, so we have to be everywhere. So we need more drivers on the street, to the people to

use the app. And I'm - in my opinion, it's

better to even - to give H-Tag for Uber drivers

to have their own car, and to bring them back,

and use the app, and get more money for DCTC and

to have a better service for the - for

themselves and for the DCTC.

The other thing is my personal thing,

I want to add is, families with disabled children

should have H-Tag, because this will give them

flexible schedule to take care of the kids, and

to make more money for living, and keep them from

getting more assistance from Government. So

please try to issue with families who got

disabled children, H-Tag, and that will help lots

of things. That's my point. Thank you very much.

Thank you. Mr. Gomez.

MR. GOMEZ: Yes. My name Israel Gomez, and I-s-r-a-e-l G-o-m-e-z. And thank you very much for bringing this agenda, and I've been driving taxi for 19 years, and this time I return my tag because I fell ill and I went back home,

COMMISSIONER MUHAMMAD: Thank you.

and I didn't know, when I came back, I didn't know they lock up the system, the status, or - and I that I'm telling that it's very hard to rent a car because the business very slow, and I don't want to become like homeless or something like that.

So I - please give H-Tag or something like that, because we are citizens, Washington, D.C. We vote for the mayor, Muriel Bowser, and also for council member, and also for the House of Representative, Eleanor Norton, and that's because we are citizens, and we should have the same equal rights like everybody else. Like big corporation come in, and they give the - got the business, switches over, or something like that. And thank you very much.

COMMISSIONER MUHAMMAD: Thank you, Mr. Gomez.

Yes, please.

MR. SHUBE: Good afternoon. My name is F-a-n-t-a-h-u-n. Last name, S-h-u-b-e. Again, thank you very much for giving me an opportunity

1 to speak to the panel, to issue H-Tags. 2 licensed since 2009, and I was always asking when 3 I can get H-Tag and buy own car, which is 4 efficient for economy, for gas, hybrid gas, put 5 on the street, and can drive, helping myself or my family, and also help for the public. But we 6 7 are what is pushing the problem, they are 8 to rent a car, or cab companies. The cab 9 companies are not competitive in market of 21 Century like we, or other, my colleague on panel 10 11 spoke earlier. And they are not competitive 12 enough, and that's why so many company came, and 13 by increasing the productive of - in the taxis, 14 or public service, by 20 percent, like he said, 15 and - so we need all people who has license, and 16 should be given opportunity once you are, we also professional drivers, we deserve it as a citizen, 17 18 make, to get own car, efficient car, and issue to 19 us H-Tag and to make market, profitable in the 20 market, and thank you very much for listen me, 21 and for consideration to issue.

COMMISSIONER MUHAMMAD: Thank you, sir.

MR. BIRBO: Good afternoon. My name is

COMMISSIONER MUHAMMAD: You have three

MR. BIRBO: Gashaw Birbo.

COMMISSIONER MUHAMMAD: Yes.

MR. BIRBO: First of all, I would like to say thanks to DCTC for listening to drivers and the customer concern, and arrange this great discussion on improving customer service, and safety, by motivating drivers who are directing the primary impact on the taxicab business.

As trained and licensed for hire, business drivers, we deserve to be given the priority to operate in the District than other competitors like Uber, Lyft, and other drivers who work for themselves, buy their own car, though they never pass through any authorized department's policies. My second point is the existing driver associations have been protesting whenever DCTC tries to modernize and to make change on the cab business.

minutes Mr. --

As an example, they had been opposing the proposed rule to restore meters as pre customers' requests, so that they can pay by credit card. So it should not be new to DCTC if they bring selfish and imaginary reasons to oppose issuance of H-Tag to us.

Is that because Uber and other associations are saying the business is saturated, or just to oppose, bluntly, as usual, DCTC's proposal to modernize the business with qualified and devoted drivers.

With thousands of other competitors, for-hire cars operating in the District, what is the meaning of opposing trained and qualified drivers to work and to compete? Individuals and the associations gave up to compete in the market, and they are happy to make easy money because of the opportunities that DCTC arranged for them to rent their car to us, so that we can work 16 to 20 hours to pay their unfair rent, to go home — and to go home with nothing.

In my belief, DCTC is here to help

drivers and listen to customers' demands, working in favor of nonexisting, unqualified, and the traditional cab companies and associations. That did nothing in modernizing the business and listening to basic customers' demand. If DCTC is responsible for regulating vehicles-for-hire business in the District, what is the reason for worrying about limiting the number of H-Tag that should be issued to the licensed drivers, when other competitors are increasing their number in thousands, with no limit and control?

So let DCTC give us the tag, make us free from slavery, and let the market decide eventually. And finally - I just got a little bit. Based on the current quantity and the quality of taxis operating in the District, the customers still demand more fuel-efficient, which are accessible, and safe cab services operated by devoted and trained drivers, regardless of thousands of unregulated companies that should not be considered legal by DCTC. Thanks.

COMMISSIONER MUHAMMAD: Thank you, sir.

1 All right. I will continue down the Thank you. 2 list of non-preregistered individuals. Abdul 3 Wahab Hassan. A-b-d-e-l. W-a-h-a-b Hassan. Excellent. Abdul Mek Shifa. S-h-i-f-a is the 4 5 last name. S-h-i-f-a is the last name. K-e-d-i-r 6 Ibrahim. K-e-d-i-r Ibrahim. Okay. Please. What's 7 your name, sir? 8 MR. HASSAN: Abdul Shifa. 9 COMMISSIONER MUHAMMAD: Okay. Abdul 10 Shifa. Okay. Negi Tochi. Negi. N-e-g-i N-e-g-i 11 Tochi. N-e-g-i. Ziri Hun. Z-i-r-i H-u-n-f-e-y-s-12 s-a. F-e-y-s-s-a. Dawit Wossaru. D-a-w-i-t W-o-13 s-s-a-r-u. Yarid Lakew. L-a-k-e-w. L-a-k-e-w. 14 e-t-i-n-e-t T-i-y-i-h. Okay. All right. Thank 15 you. Tesfaye Lima. Tesfaye Lima. Okay. 16 So those are the remaining names. 17 can begin. This is the last panel. 18 MR. HASSAN: Good evening. My name is 19 Abdul Wahab Hassan. A-b-d-e-l W-a-h-a-b Hassan. 20 H-a-s-s-a-n. 21 Probably you recognize from the number 22

of participating drivers, that there is, has been

1 a problem. The Commission was more interested in 2 the modernizing of the business and were not 3 interested in - or giving enough interest to the drivers. Solving the H-Tag issue will solve many 4 5 of their problems. It's not too late. I think myself, I think that the problem could be solved 6 7 by returning the balance between the carrier of 8 licenses and the H-Tags. I know it might not 9 happen right away, it could not happen right 10 away, but it could happen if you have a strategy, 11 and if this is your intention, it will happen 12 gradually.

How can you get tags? A company who is not taking care of the car, who is not maintaining it, who is refusing to do the safety for the car, for the drivers, should be - you should be able to put rules to get this tag be available to driver. Driver are more trusted to maintain their cars.

Also there are individuals who own two or more tags while others are renting, and those are - they are not - they don't own these for

13

14

15

16

17

18

19

20

21

money, they just own it so they can only own one. So there are ways to get tags, and, you know, gradually. You should have a plan, so gradually, we would have the balance between licensed carriers and tag carriers. Of course I would ask for those who already have one, and to have the priority of getting their tags back. Thank you so much.

COMMISSIONER MUHAMMAD: Thank you, sir.

Please pronounce your name for the record.

MR. SHIFA: Good afternoon. My name is Abdul Mek Shifa. A-b-d-u-l M-e-k Shifa. S-h-i-f-a. First thing foremost, I would like to thank the panel discussion and the DCTC who facilitate this panel discussion. Is very important for us to explain to our griefs, and we are grieving because of not getting the right car to drive in - the right customer but with the right cars, and because as the previous speaker noted, we become like -- because DCTC gave us, and hijacked us, you know, because DCTC gave us the license but not the ownership of H-Tag. And this reminds

me one of my American history class. Frederick

Douglass once said like when, during his

emancipation speech: The slave becomes free from

the slave owners but slave to the street. We

become slaves of the street, because we go 
like even nowaday, like they talk each other,

the companies, when we - if you are not fired or

something happen to you in one company, you

cannot get a car from other companies. They're

communicating that much.

And so DCTC is like I think

responsible to modernize this technology, because
it's giving - right now, it's giving a Third

World customer service, because the cars are very
dilapidated, they're worn out, everything. If you
give us a chance to have H-Tag, we'll buy fuelefficient cars, and disabled also for - to
facilitate every individual who comes to my car.

And so how could you expect a smile to come to my face while I'm feeding the taxicab company before I feed my children? And so I would like to encourage and recommend DCTC to

issue an H-Tag for all drivers, without any distinction, whether they come today or not. Thank you very much.

COMMISSIONER MUHAMMAD: Thank you. Sir, please spell your name for the record.

MR. SHIFA: Good afternoon. My name is Kedir, K-e-d-i-r. Last name, S-h-i-f-a. Shifa.

First of all, thank you for this panel, and the reason why I would like to ask DCTC to issue H
Tag is a lot of my colleagues have been mention the reason why. We cannot compete with like Uber,

Lyft, such companies, because we don't have, you know, decent car. You know? There's - I have a lot of customers encounter on - while I'm driving taxi, they been telling me that the reason why switch to Uber - because the cars are not comfortable. That's the main thing.

Personally, I would like to have HTag. I can make my own money; you know? By the
end of the week, my money goes to the rent. You
know, like my friend just mentioned, we are
slave, slave outside. We cannot make money. The

money you make goes to rent. So you end up nothing. Zero. Just rent. So we need H-Tag to, you know, facilitate, buy decent car, and go out on road and compete with Uber; you know? There is app - DCTC app which is - we can beat Uber if everybody, all drivers get H-Tag, we can beat Uber with that app.

So I would really appreciate if you -you know, it's not supposed to be an issue, to give H-Tag for driver. This is a free country.

This is the world capital, yet we still work as slave, you know.

So thank you for that opportunity.

COMMISSIONER MUHAMMAD: Thank you.

MR. TIYITI: Thank you, panelists. My name is Gestinet, G-e-s-t-i-n-e-t. Last name is T-i-y-i-t-i. When we are hitting the -- very, very different issues, including the ones like providing the fuel efficient and the one, wheelchair accessible, still before like, before this hearing decided, or to give final decision, still the DCTC is supporting or like favoring the

companies, because I saw on the Web site, the DCTC is favoring for the companies grants like to purchase the new wheelchair accessible, like more than 750,000. Still the DCTC is supporting or favoring for the companies for wheelchair accessible.

We are requiring to purchase the new one, or the new one, and the fuel efficient - why they are doing this one before this hearing is decided? You know, still, we are not considered in this requiring or in this issue.

This is my question.

The other one. It's not at this time regulating or like limiting the taxi drivers from getting H-Tags, it's not like - it's not up to them, because as you see private drivers, or private transportation, they are controlling the market because they are out of regulation or out of their regulation, because they are doing freely, you know, because they have their own tag, their - they have their own and everything.

So we need same kind. We do like this

1 service freely and competently. Thank you very 2 much. 3 COMMISSIONER MUHAMMAD: Thank you, sir. 4 Appreciate. Thank you. Thank you, panel. 5 Okay. So that was the last of the folk who registered, who had signed up and pre-6 7 registered. 8 Is there anyone else in the you guys 9 can leave. Thanks. Is there anyone else in the 10 room that would like to testify, that have not 11 pre-registered, or has not signed up today? 12 there anyone who'd like to testify? If so, please 13 come to the table and we will allow you to give 14 your name, and give your testimony. 15 All right. This will be our last 16 person to testify. Okay. Please spell your name. 17 MR. TEMTEM: Thank you very much for 18 giving me a chance. My name is Luleseged Temtem. 19 L-u-l-e-s-e-q-e-d. Last name T-e-m-t-e-m. 20 COMMISSIONER MUHAMMAD: Okay. 21 MR. TEMTEM: I really - I am the 22 driver, which I have a tag after 2006. So I am

affiliated with a company. Because of that, I have to be in the company to drive in D.C. So because of that, I been forced to pay more monies and extra monies at the same times. Also without my willingness, they can put us anywhere they want without telling us.

So because of that, why we being we suffer like that just because we don't have a tag. So on my case, I personally, I believe I need to have the tag because I got - I was trying to have a tag before 2006, before the law is coming. So I try to get a tag but the DCTC closed three times.

So because of that, after I pass one exam, and then waiting for the computer exam,

DCTC shut down his program. So because of that,

when they open, the time is changed and they

changed the new rule. So I believe I start

paying, and attend the class before the law, and

I pay the money before the law.

So the DCTC's problem is they closed before telling us. When they opened, they change

the rules, so we stuck. So why we get, slave for this company without even our willing, and just because of we don't have a tag. So it is very important to give - at the same time, also I don't have any problem to give any tag for everybody. But we should have a limit. It is ludicrous to say, when Uber flooded the city, to say not to give to our brother another tag, it is very sad for me. The Uber is flooding the city. But I believe those people, they were designed, the signature, not to ask a tag before they get the license. I think they already put themself on that. So I think that's the reason they don't get.

But in my case, I don't have any problem to give everybody, but when the Uber come and flood the city, still, they are our brother and sister. Otherwise, they should have a limit, some kind of limit for the city. Thank you very much, sir.

COMMISSIONER MUHAMMAD: Thank you, sir. I appreciate it, and that was our last
