OFFICE OF THE CHAIRMAN
Ron. M. Linton

MEMORANDUM

TO: All Taximeter Installation Shops
FROM: Driver Services
DATE: April 2, 2013
RE: Emergency Green Seals

Please be advised that effective immediately the DC Taxicab Commission will issue emergency green seals until the red seals are restocked on or before April 30, 2013.

Taximeter shops should use the same procedures with the green seals as with the red seals and return to the Commission the red seals being replaced. When making the replacement, meter companies must identify the red seal number, the emergency green seal number, vehicle tag number, the taxicab company and driver's name.

Green seals will be accepted by DCTC Hack Inspectors until notification is made to replace them. Seals found broken by Hack Inspectors will be replaced by them with emergency green seals until the new read seals arrive.

All emergency green seals must be replaced within 24 hours once the red seals are available.
