Subject: Thank you for your service.

Greetings,

I just wanted to take a moment to appreciate and thank Officer Fludd and your organization who helped my daughter and her friends.

My daughter and friends attend college in Washington D.C. We are from a small town here in Missouri. My family battled for months before deciding to allow her to attend college in a busy city such as Washington D.C.. My husband and I were petrified. Needless to say we agreed to let her go. Recently she came home from break and shared the details of an incident that occurred on February 4. I'm not sure why we're just finding out. But in her defense I'm sure she was afraid her Dad would immediately come and get her.

According to my daughter, that night was the scariest night she'd ever been through. She didn't know what was going on and feared for her life. She and her friends have dubbed it the "Nightmare on 14th Steet".

Apparently the driver of their Uber was stopped by Officer Fludd. The driver immediately jumped out and ran. After making sure my daughter and friends were safe, unharmed and giving my daughter his jacket to stay warm he helped locate the driver which was arrested by the city police. Earlier today I contacted the city police to inquire about the incident. I was informed that the driver had several arrest warrants which is why he attempted to flee. They were unable to give me any details as to what the arrest warrants were for.

The Officer I spoke with by phone did inform me that Officer Fludd did a great job by quickly grasping the situation and helped coordinate the effort between dispatch center and field officers to locate the driver.

Writing this email makes me wanna cry because had it not been for you guys who knows what would've happened to my baby.

Knowing you guys are around does make us feel more more comfortable and relieves some of the anxiety.

We feel extremely grateful and safe to have you guys around.

I was unable to get Officer Fludd's contact information. So we ask that you please express our sincere gratitude to Officer Fludd and your entire organization.

Thank you!
~Sunil & Family
